Main features:

1. docx format reading and rendering
2. pdf format reading and rendering, annotation.
3. pdf format page editing.
4. pdf format page element editing.
5. pdf format page element eraser.

Help Tips

1. Page element editing:

- Switching to element editing mode by clicking the marked button as following:

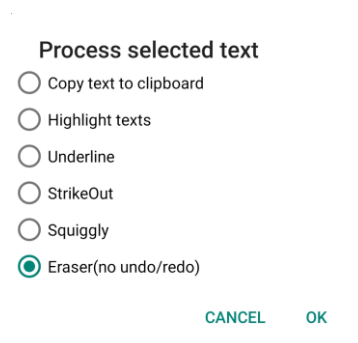

- Click on any element (text, image, etc.) on the page. It will be marked as “selected to edit” with border.

2. Page element eraser:

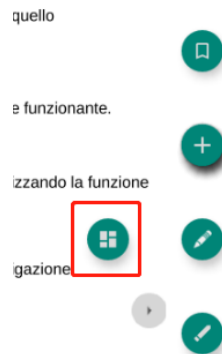

- Long click on the page to switch to element selecting mode. Move to select whatever you would like to remove from the page.
- Release the touch when selecting is done. Following dialog will popup.

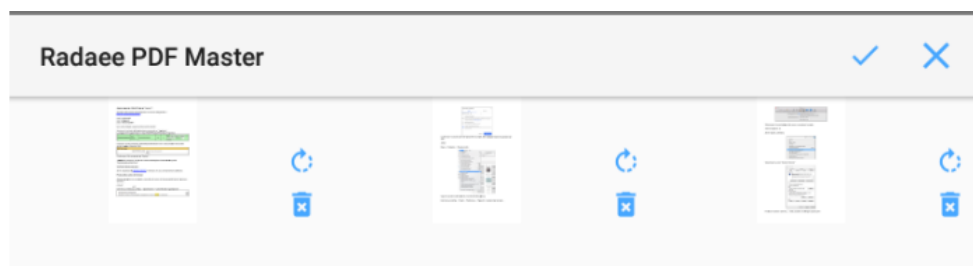

- Select “Eraser” in the list, the selected element will be deleted from the page.

3. Jump to/Organize page:

- Switch to jump to/organize page module by clicking marked button in following image:

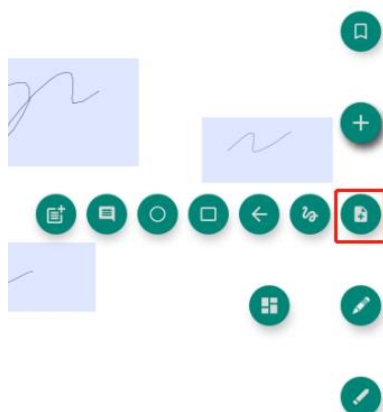

- In this module, you can rotate, delete any page by clicking corresponding button. When you are done, click on the confirm button on the action bar, or cancel when you would like to discard everything you have done.

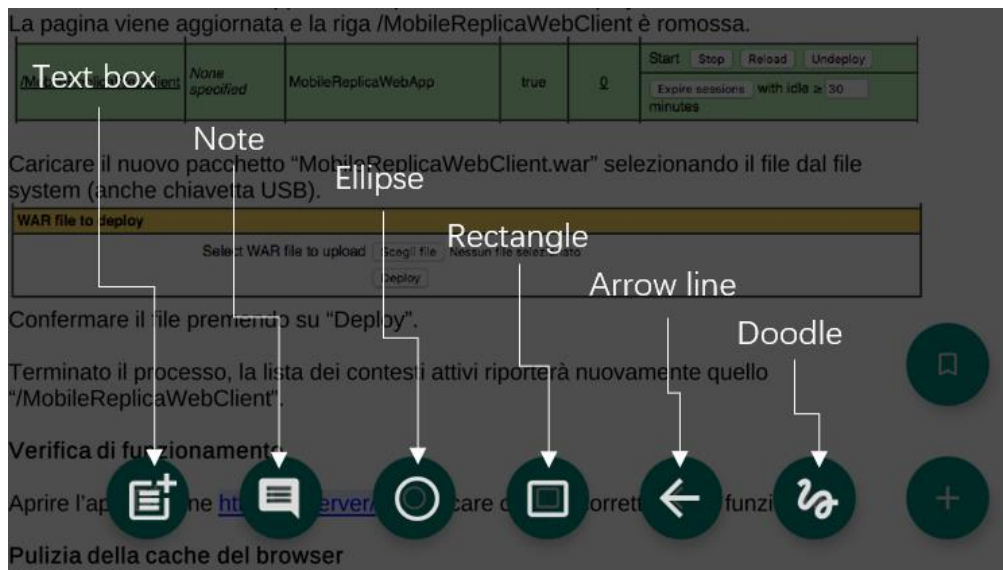

- Click on any page, you will go back to the document reading module, and jump to where you just clicked.

4. Annotations

- Click on marked button in following image to open the annotation menu

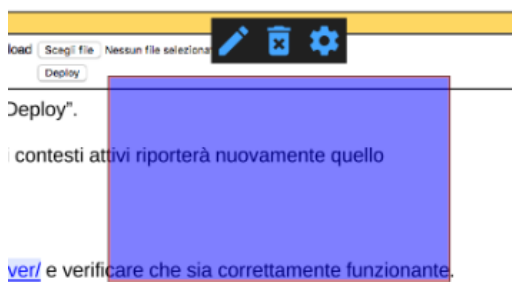

- Click on corresponding button to add annotation on document page.

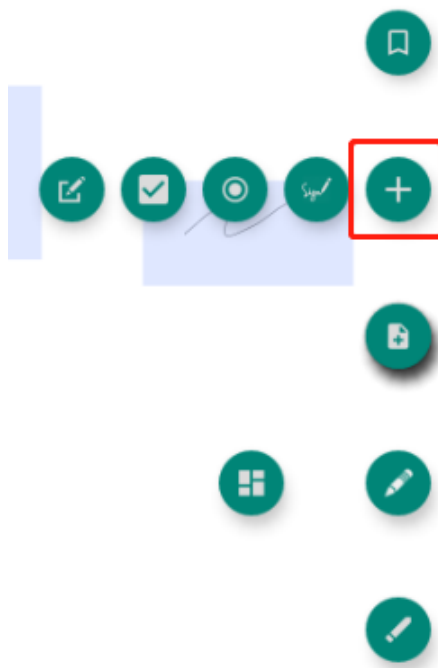

- Click on any added annotation to edit/remove it.

ileReplicaWebClient.war" selezionando il file dal file

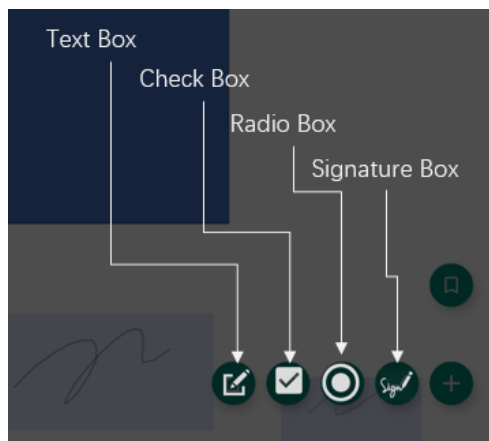

5. Text fields

- Click on marked button in following image to open the text fields menu

- Click on corresponding button to add annotation on document page.

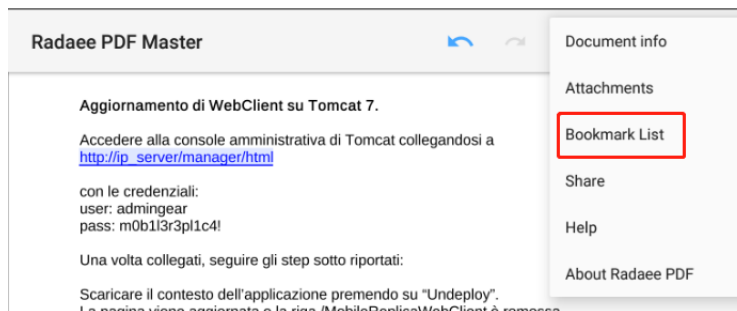

6. Bookmarks

- Click on marked button to add bookmark to current page

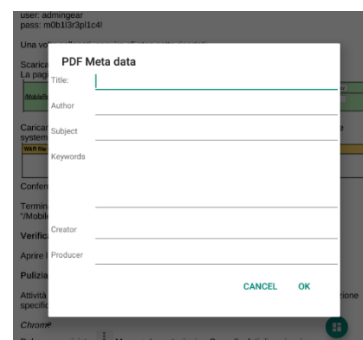

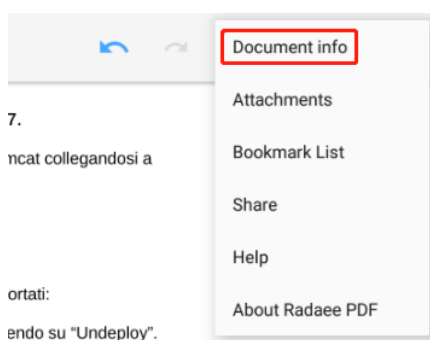

- To check your bookmarks, click on the “Bookmark List” item in the action bar.

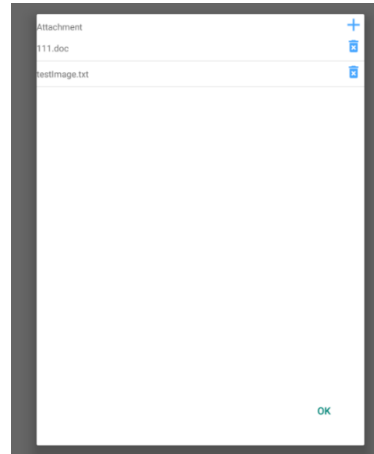

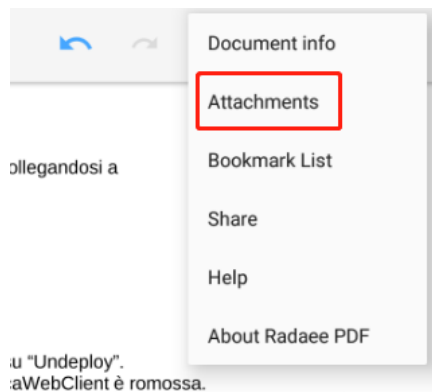

7. Document information

- Select “Document info” item to check and modify the basic document information

8. Attachments

- Select “Attachments” item to check and manage document attachments

9. View mode

- Radaee PDF Master provides 4 different view modes for reading documents. Select “View mode” item to try each one.
